VPerfect CS Serves!

"Our essence is to serve for your betterment"

Inventory Modules

- Our custom inventory modules are as shown below:

Delivery Order by Multi-warehouse Inventory Module

Stock Ledger Report Module

- This module updates the user with all the necessary details on stock needed to manage them in an efficient way in a warehouse of an organisation

This module shows the forecast of stock and displays Stock by location, Current Balance, Incoming, In-progress and Un-reserved orders.

- It updates the user with following information:
- **Product Forecast**
- **Product Quantity on Hand**
- **Current Balance**
- **Incoming Orders**
- **Un-reserved Orders**
- **In-progress Orders**
- It also provides a smart button on the product configuration form page as **“Stock Ledger”**

- **Current Balance**

Current Balance				
Date	Origin	Operation	Qty(+/-)	Balance
2020-09-02	WH/MO/00005	Production	+1	4
2020-09-01	SO020	Customers	-1	3
2020-08-31	PO00009	Vendors	+3	4
2020-08-31	WH/MO/00004	Production	+1	1

Showing 1 to 4 of 4 entries Previous Next

- **Product Quantity on Hand and Product Forecast**

Product	Internal Transfer	Qty On Hand	Forecast
Customizable Desk	DESK0004	4.0	8.0 = 4.0 - 0 - 1.0 + 4.0

Balance = Total on hand - Outgoing - Unreserved outgoing + Incoming

- **Product Quantity on Hand**

Stock By Location			
Location	Non-Reserved	Reserved	Total
Stock	4.0	0.0	4.0

Showing 1 to 1 of 1 entries Previous Next

- **Incoming Orders**

Incoming Order(s)				
Date	Origin	Operation	Qty	Balance

Showing 1 to 1 of 1 entries Previous Next

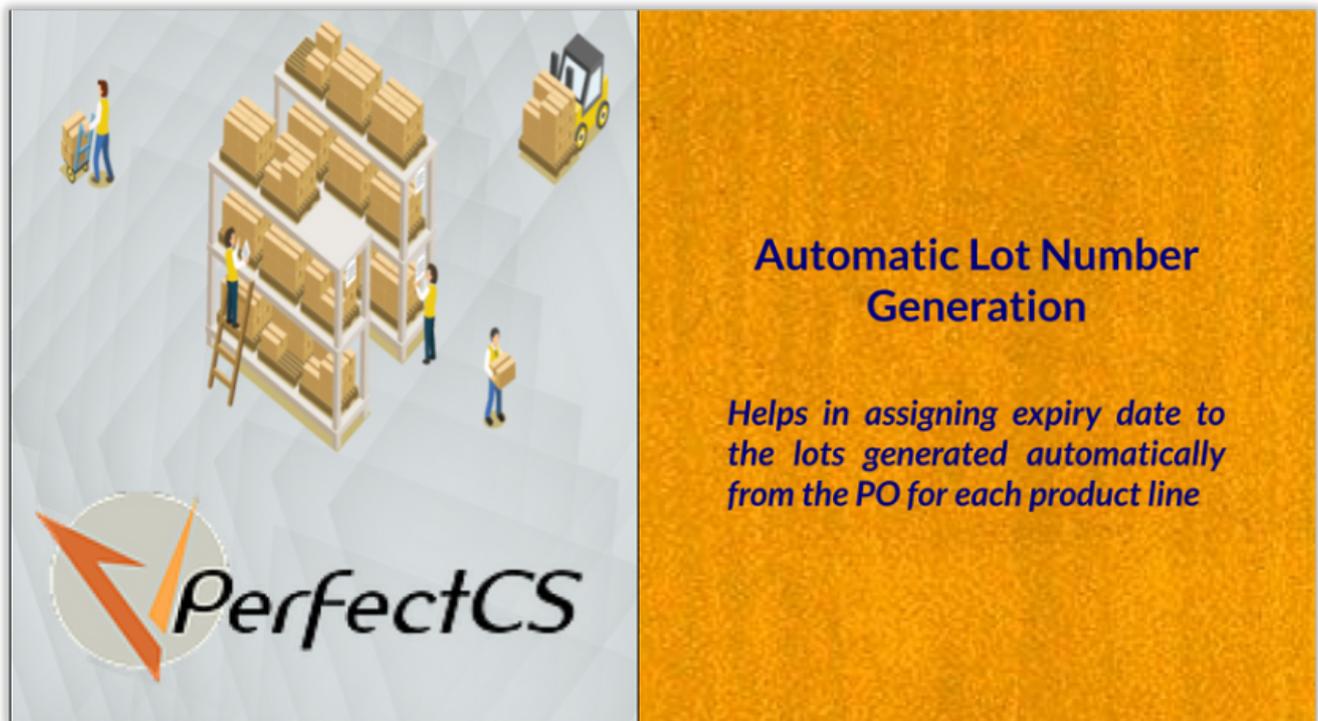

- **In-Progress Orders**

In progress Order(s)				
Date	Origin	Operation	Qty	Balance
2020-09-07	SO025	Customers	-1	29

Showing 1 to 1 of 1 entries Previous Next

Automatic Lot Generation Module

- This inventory module provides the feature of generating “**Lot Number**” automatically for **order lines** on “**Purchase Order**” and assigning “**Expiration Dates**” for each product line on the invoice

- We just need to provide the **Location** and **Expiration Date** to the products while receiving the products from purchase order and it will automatically assign the **Lot Number** to the received products
- When a sale order is confirmed it will automatically create delivery order for the order lines based on available lots and expiration dates of lots using the **First Expiry First Out** inventory removal strategy

Cancel Sale Order Picking Module

- This module allows to **Cancel** confirmed sales orders with all the related processes like **Manufacturing Order, Order Picking, Order Packing, Order Shipping, Invoicing**, etc on a single click on a sale order

- This module can be used on all the available **Shipping Routes** available in **Odoo**
- It will also create a **Return** delivery for performing the return of delivered items or **Cancel** all the upcoming operations of order processing
- This helps the user in managing the **Cancelled Orders** from one place and thus saves their time and resources
- The module also has the feature of setting the cancelled sale order into the **Draft** state if the user wants to do so by clicking on **Set to Quotation** button

Delivery Order Split by Delivery Date Module

- This module has the feature of automatically splitting the delivery orders based on delivery date of sale order lines in a sale order
