We are official Odoo Partner

Our Profile

Veracious Perfect Consultancy Services (VPCS) Pvt. Ltd. is an official Odoo Partner since 2016. VPCS was started with an aim to provide veracious tech consulting and allied services to clients and helping them in digitizing their processes. We have so far developed **70+** modules in **Odoo** and have served **50+** clients globally.

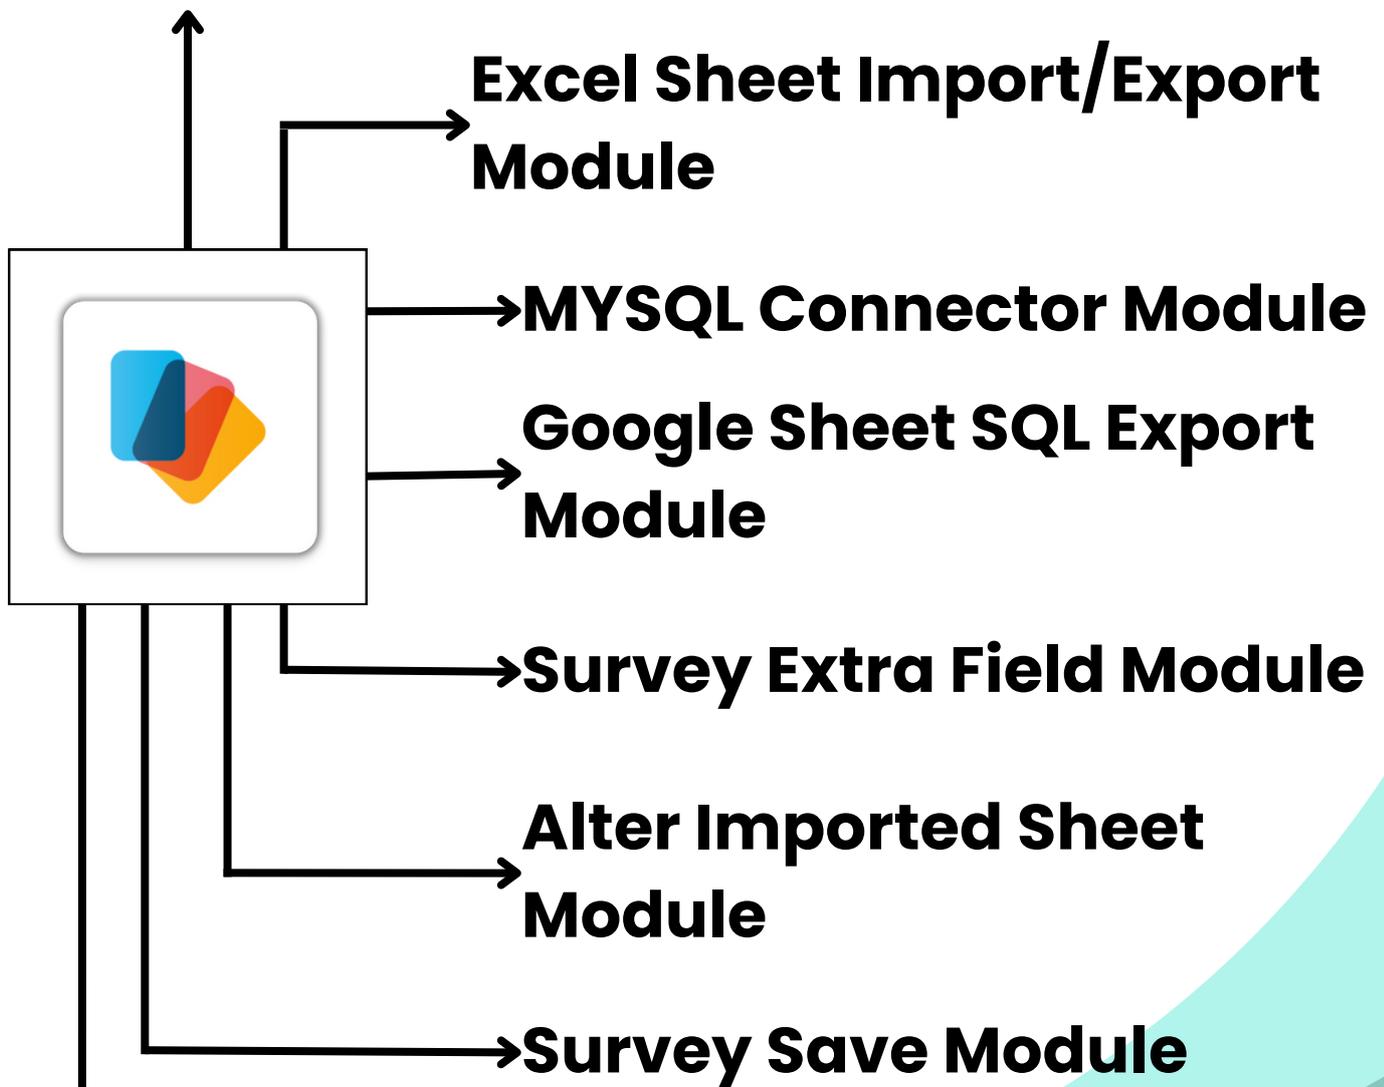

VPerfect CS Serves!

"Our essence is to serve for
your betterment"

MODULES

We have developed the following document modules portrayed below by customizing the **Odoo** standard modules for our clients for organizing their administrative tasks

Add New Model, Field, form, Tree View from Worksheet

Multi-attachments Product Documents Download Module

Excel Sheet Import/Export Module

- This module aids in importing the pre-existing data into our database and also exporting our data in other database in the form of an **Excel Sheet**

- We can also create **New Fields** by adding them in our worksheet and they will be automatically be created in our database while importing the worksheet in **Odoo**
- This helps in saving our valuable **Resources** and **Time** of manually entering the data or exporting our data from our database
- Thus, increasing the efficiency of an organisation by diverting the use of valuable resources to other productive tasks

Google Sheet SQL Export Module

- The **Google Sheet SQL Export Module** can be used to export any data from our database into an **Excel Sheet** by passing an **SQL Query** in **Odoo**

- It allows to export any type of data model from our database into an excel sheet
- It also has the feature of running the **SQL Query** based on **Scheduled Actions** and **Manual Actions**
- The user based on their requirements can write the **SQL Query** and export the data which provides the user the convenience in exporting the desired data

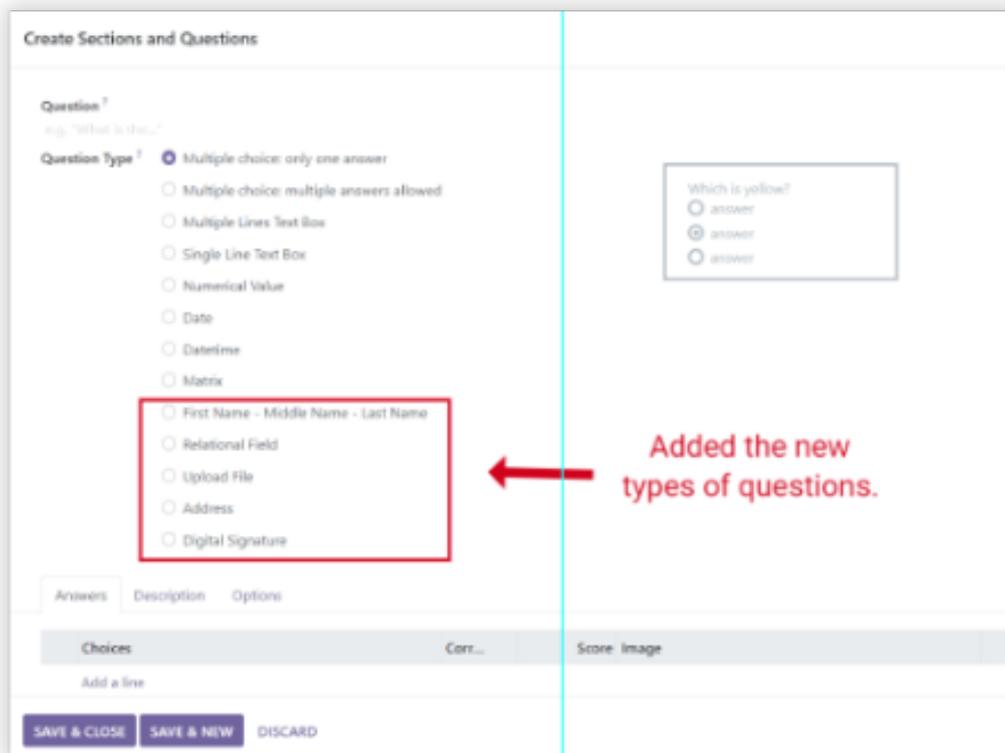

Survey Extra Fields Module

- The **Survey Extra Fields Module** has the added features of new fields that can be used in the survey other than that provided by **Odoo**

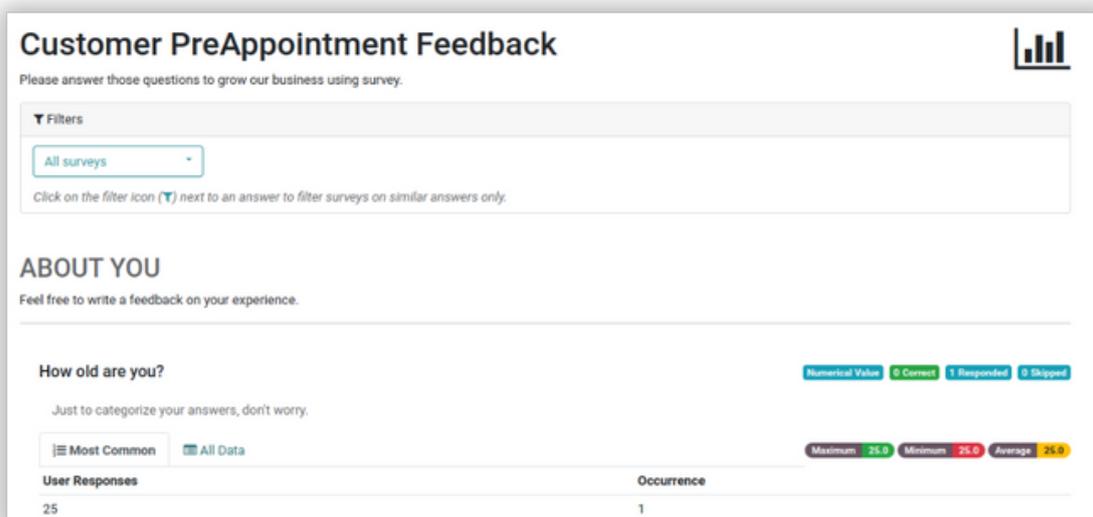

- The figure above shows the list of new fields added in the module
- The module also provides the feature of **Validation** to the answers entered by the user
- It has a feature of providing a **Report** containing the responses for each question in the survey
- This reporting feature provides an ease in analyzing the survey responses

- The figure below shows the **Question** console in **Odoo**

- The figure below shows the **Reporting** feature of the module

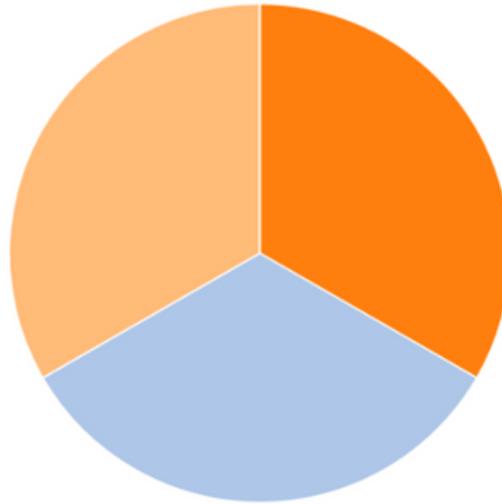

How frequently do you buy products online ?

Multiple choice: only one answer 3 Responded 0 Skipped

Pie Graph Data

Once a day Once a week Once a month Once a year Other (see comments)

How many times did you order products on our website ?

Numerical Value 0 Correct 3 Responded 0 Skipped

The checkout process is clear and secure	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I have added products to my wishlist	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Multi-attachments Documents Download Module

- Be it a **RFQ** or a **Purchase Order** or a **Sales Order** or an **Invoice** or a **Product Catalogue**, all can have multiple documents attached with it
- It becomes a cumbersome process of downloading all the documents individually

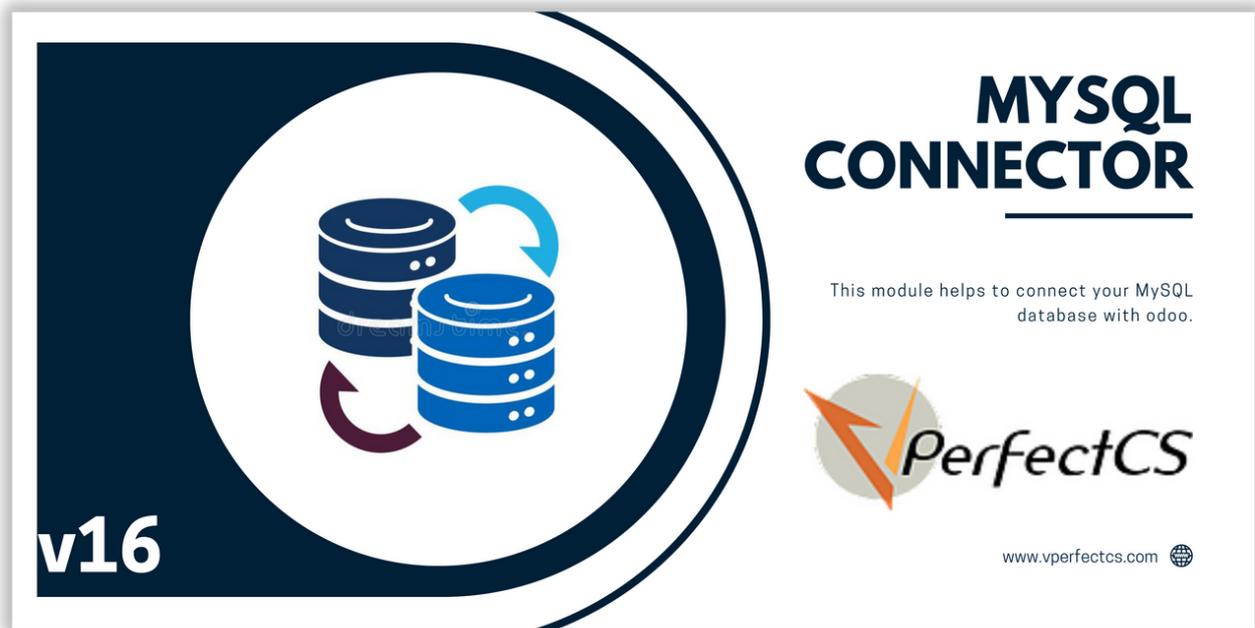

- To solve this, we at **VPCS** have developed a module which helps in downloading multiple documents at **Once**

- It allows downloading all types of files
- This reduces the user's fatigue and saves their time, making the work of handling documents easy and accessible

MYSQL Connector Module

- This module helps in integrating **MySQL** database with **Odoo** database

- The user can easily sync the data between the two databases
- The data from **MYSQL** database can easily downloaded into **Odoo** database
- Thus, this seamless syncing of data from one database to other provides effective management of an organisation's resources which helps in increasing its productivity.
